Business Card Software

Guide picks

These programs let you create business cards in minutes from templates or from scratch. Especially suited to individuals and small businesses that just want to print a few cards on-demand to their desktop printer. Some business card software includes paper samples and options for commercial printing.

Top Business Card Design Software - Windows

Your best bets for business card software that balance price and performance and features.

Art Explosion Business Card Factory Deluxe [Win]

Thousands of editable templates, images, and 500 TrueType fonts in this Nova Development package lets you create a variety of horizontal, vertical, and even folding card designs. Includes a built-in address book and paper sampler. A hefty program for under \$40 that also includes an option to print camera-ready artwork for commercial printing.

programs.

Supports both standard letter size and A4 paper stock. Download a trial version. Most programs claim you can create a business card in 10 minutes, they say it only takes seconds. ZDNet gives it 4 stars.

Business Card Printery [Win]

20,000 card layouts or design your own layout with this low-cost business card software. Has text effects and can included scanned photos or send your business card by email. About \$16.

Data Becker 30,000 Business Cards [Win]

More templates than most packages including vertical and horizontal designs plus 10,000 clip art images and 250 fonts. A pack of Smooth Edge Business Card stock comes with it. The Card Generator is a nifty feature that will show variations of your card. Has a Logo Creator utility. Under \$20.

My Professional Business Cards [Win]

From MySoftware, this package includes perforated card stock, graphics and text-editing tools, plus templates and a logo library of images. Under \$30. Mixed reviews.

Paraben's Business Card Builder 3.3 [Win]

Use a template or start from scratch. Import your own graphics. Supports double-sided printing and saving your design as a graphic file. Includes a small database. This shareware business card software program is priced at under \$25.

ProVenture Business Cards [Win]

Choose from dozens of designs. Print your own business card from the desktop in minutes with under \$10 package from Elibrium. They have many other low-cost specialty programs for businesses.

SF Business Card 6.0 [Win]

Template-based designs are fully customizable. Includes a simple database for holding up to 100 different names/addresses. This shareware program is only \$10.

Surething CD Business Card Kit [Win]

Create business card-size CDs (50 MB) with audio, video, and text. 10 blank disks (refills available), sleeves, labels, labeling software, and label applicator. Use your own CD Writer and software to create the content. Great for portfolios, customized cards for specific clients or prospects that aren't quickly forgotten. Around \$40 from Microvision Development.

Visual Business Cards [Win]

Download and try it free for 30 days. This easy-to-use RKS Software program creates standard size horizontal or vertical cards. Includes templates and background images, text effects, and simple drawing tools. You can add your own graphics.

Service: Business Card Express

Wholesale printing available even for the small quantities needed by

most small businesses.
